FIBREGLASS TAPE							
		<i>A 50mm wide self-adhesive fiberglass mesh tape for plasterboard joints. Specifically designed to resist edge fray while maintaining ultimate adhesion. Easy to use, eliminating pre-plastering and air bubbles.</i>					
	5FT20	Self Adhesive Fibreglass Joint Tape	20m	24	3.80	120	3.45
	5FT90R	Self Adhesive Fibreglass Joint Tape "PlasterX" (Red Bag)	90m	24	7.60	120	6.95
	5FT90G	Self Adhesive Fibreglass Joint Tape "Wall Span" (Green Bag)	90m	24	10.35	120	9.95
		<i>Pallet Rates available on application for this product.</i>					
							
PAPER TAPE							
		<i>A 52mm wide paper tape manufactured from special fibred paper with added tensile strength. Buffed on both sides to ensure optimum bonding and holding power. Tape is centre creased for easy and accurate corner applications. Perforated for ease of use and better adhesion. Designed for use with both automatic and hand tools and all major brands of compounds.</i>					
	5PT75	PlasterX Perforated Paper Joint Tape	76m	20	3.90	100	3.70
	5PT150	PlasterX Perforated Paper Joint Tape	152m	10	7.90	100	7.50
		<i>Pallet Rates available on application for this product.</i>					
TAPE DISPENSERS

Why Professional installers demand Straitflex

PROFESSIONAL FINISH

Unique design creates the sharpest, straightest edge even in irregular applications.

ECONOMICAL

Save up to 50% installation and sanding time. Use less compound. No special tools, fasteners or adhesives required.

LOW PROFILE

Has a small nib when used on external angles producing the sharpest finish, eliminating kick out on skirtings. Has a slight recess on internal corner - great for painters. Joint compound is not required in centre crease allowing for absolutely no build up on internal corner.

NO WASTAGE

Won't kink, rust, dent or tear. Waterproof. Handy 30.5m (100') rolls. No need to stock different lengths - just cut what you need.

ELIMINATES CRACKING

No compound is required in centre crease of internal angles therefore eliminating the most common cracking problem.

SUPERIOR ADHESION

Specially formulated dual thermo bonded fibrous surface creates an integral bonding to joint compound. Does not fuzz with sanding. Surface should be lightly skim coated to ensure uniform drying of paint. Paint must be thoroughly dry before second coat of paint is applied.

WATERTIGHT JOINTS

Designed for use with all leading brands of water resistant boards, so wet areas are no problem. Unaffected by water.

PREVENTS CALL-BACKS!

Guaranteed against deterioration. No Nail pops. Will with-stand small shrinkage in framing members that could cause cracking in corners. Will not with-stand large movement in framing members.

VERSATILE

Designed for all uses, including wet area boards, fibre cement sheets and great for renovation work to repair cracked corners.

STRAITFLEX DRYWALL CORNER TAPE - ORIGINAL							
	5SF30	<i>A revolutionary hi-tech drywall corner tape that flexes to any angle, internal or external. Creates a sharp, straight edge even in irregular applications. Saves a vast amount of compound and installation and sanding time. Perforated product is available to ensure that sufficient base is used behind Straitflex, improving the bond.</i> Straitflex Drywall Corner Tape – Original	30.5m	12	54.50	60	49.90
	5SF30P	Straitflex Drywall Corner Tape – Perforated	30.5m	12	54.50	60	49.90
	5SB30P	<i>A wider and thicker version of Straitflex with perforations. For use on hard to straighten surfaces, and vaulted ceilings where framing members are not straight. Provides extra strength for external corners and is ideal as a repair tape to cover cracks along metal external angles.</i> Straitflex Drywall Corner Tape – Big	30.5m	12	71.90	48	66.50
STRAITFLEX – TUFF TAPE							
	5TT60	<i>An ultra thin version of Straitflex. For use in place of paper tape while providing up to four times extra strength and straighter and faster installation. Ideal as a repair tape and for use in wet areas – it is unaffected by water.</i> Straitflex – Tuff Tape	61m	12	54.50	60	49.90
ARCH FLEX TAPE							
	5AF15	<i>Same as original Straitflex but with die cuts for use on arches and other curved applications like circular stairs. Also suitable for special applications where both legs must conform to curved walls such as barrel ceilings.</i> Arch Flex Tape	15m	12	36.50	48	33.50
MAGIC CORNER
